## DOMAINE SKOURAS

Dear all,

Through all these years that you honor us with your collaboration, Domaine Skouras develops continually, planning on being on top of the list of your preferences. Our modern facilities, combined with the atmospheric cellar and the beauty of the landscape, makes Domaine Skouras an irresistible destination. So close to Athens and yet so far from the noisy city, visiting the winery is an unconventional experience, that offers enjoyment, relax and education.

In another effort to follow our era, we renovate the reception of the winery and build a wine bar on ground level, where our visitors can taste our wines paired with special dishes and enjoy the wonderful view of Argolis land.

Our wines are always on the top list of Greek wine world, and every year conquer even higher positions world widely. Awards and high rates skyrocket the very well known Skouras wines to the sphere of extra fine Greek wines.

Domaine Skouras aims for winetourism in Greece.  
Wine specialists give wine education and tastings, making the winery visit a unique experience.  
It would be our pleasure to see you again this year, to tour you around the world of winemaking and to taste with you splendid wines.
